

The graph displays the population aged 65 and over over a ten-year period. The x-axis represents the years from 2000 to 2010, and the y-axis represents the number of people in millions, ranging from 0 to 100. A blue line with triangle markers indicates a consistent upward trend in the population. A single purple dot is located at the year 2005, representing the population aged 65 and over at that specific time, which is approximately 25 million.

| Year | Population aged 65 and over (millions) |
|------|--|
| 2000 | 20                                     |
| 2001 | 21                                     |
| 2002 | 22                                     |
| 2003 | 23                                     |
| 2004 | 24                                     |
| 2005 | 25                                     |
| 2006 | 26                                     |
| 2007 | 27                                     |
| 2008 | 28                                     |
| 2009 | 29                                     |
| 2010 | 30                                     |
